2. Key Health Sector Response and Coordination:

OCV Campaign Progress:

NUWAKOT

10.04%

Target Population	71,635
Total Reached	7,191

Rasuwa

13.09%

Target Population	31,474
Total Reached	4,119

Nuwakot: Nutrition screening was conducted among 210 children under five years of age staying at holding centers in four flood-affected municipalities of the district. All children were found to have normal nutritional status.

Rasuwa: A Nutrition Cluster meeting was held. Preparations are underway to conduct nutrition screening activities in the flood-affected areas.

Update on Reproductive, Maternal, Newborn and Child Health Assessment

A rapid assessment was conducted in the flood-affected local levels of Rasuwa, Nuwakot, and Dhading districts to assess the current status of RMNCH services and identify immediate support needs.The assessment focused on the physical condition of health facilities providing Birthing Centre (BC), BEmONC, and CEmONC services, particularly those in severely flood-affected areas. Key areas assessed included the continuity of essential services, disruptions to service delivery, and damage to physical infrastructure, equipment, and supplies.Based on the findings of the assessment, immediate support needs and priorities will be identified to ensure the continuity of maternal, newborn, and child health services in the affected areas.

🦠 Disease Surveillance:

Reporting Platform

Surveillance, Outbreak Response Management and Analysis System **(SORMAS)**

Reported cases in Past 24 | Various holding centers in Rasuwa & Nuwakot Districts
