Updated as of 17:00 hrs, 11 Sep 2026

2. Key Health Sector Response and Coordination:

Update on Vaccination and Vaccine-Preventable Disease (VPD) Surveillance:

- Oral Cholera Vaccine (OCV) campaign is being conducted in Rasuwa and Nuwakot Districts starting from 10 September 2026.
- Vaccination is being provided through ward-level vaccination centres, targeting children aged one year and above and other eligible individuals.
- Target populations have been requested to participate in the campaign and receive the vaccine while avoiding duplicate vaccination/doses.

Vaccination Campaign Coverage by Local Level

Sexual, Reproductive, Maternal, Newborn, Child and Adolescent Health (SRMNCAH)

- Assessment teams have been deployed to evaluate the current status and service readiness of SRMNCAH services in health facilities across flood-affected districts.
- Assessments have so far been completed at Dhading District Hospital and Salyantar Primary Health Centre (PHC).
- Flooding and road damage have increased challenges in patient referrals, while the cost of ambulance services and oxygen transportation has reportedly nearly doubled.
- At Dhading District Hospital, a shortage of a paediatrician for the past two months, lack of an ultrasonography (USG) machine, and shortages of essential medicines and neonatal care equipment were identified. However, ICU and SNCU services remain operational.
- At Salyantar PHC, shortages of basic diagnostic equipment were identified, posing challenges to essential diagnostic testing and service delivery.

Disease Surveillance:

Reporting Platform

Surveillance, Outbreak Response Management and Analysis System **(SORMAS)**

Reported cases in Past 24 — Various holding centers in Rasuwa & Nuwakot Districts

13 ILI Cases Fever with Cough	**0 Acute Gastroenteritis** AGE Symptoms	**1 Fever with Rash**	**5 Fever Cases**

- Preparations have been made to conduct RDT testing at holding centers and community level for the identification and surveillance of potential influenza infections.
- Fever and diarrheal cases are being appropriately managed by the respective local governments.

Note: Public health measures have been implemented, with further investigation and monitoring ongoing.

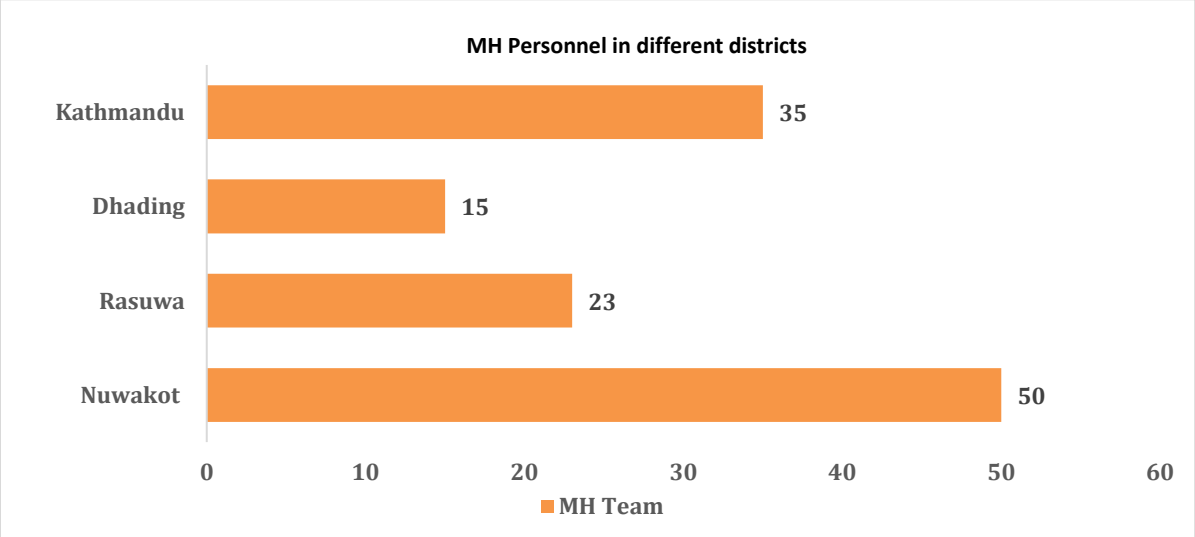

3. Mental Health and Psychosocial Support (MHPSS):

10532
Total people Reached (PFA to 7946 MHPSS Services)

123
Mental Health Team Mobilized (1 psychiatrist, 1 Clin-Psychologist, 121 counselors, PFA volunteers)

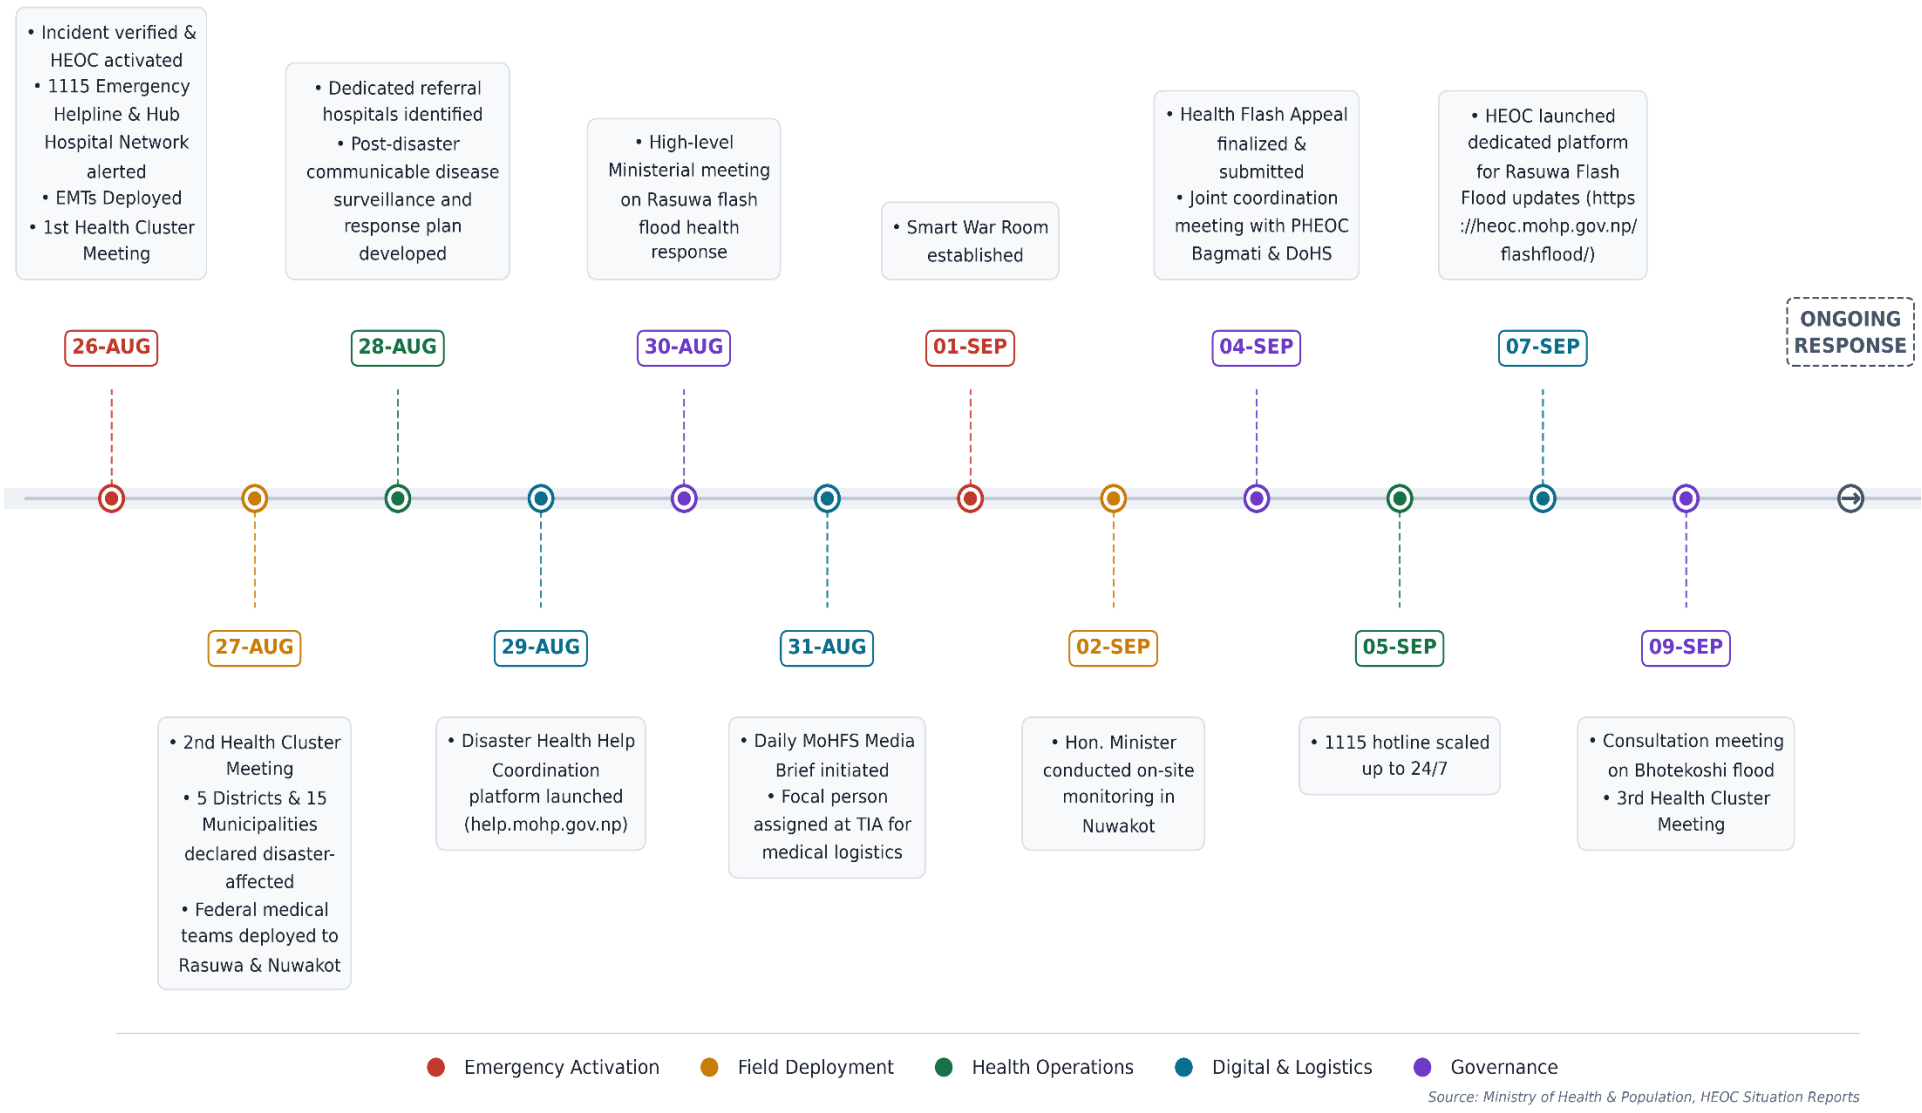

117
Call Attended through helplines (24/7) regarding Mental Health

- MHPSS/PFA services continue across holding centres, hospitals, and affected communities in Nuwakot, Rasuwa, Kathmandu, and Dhading.
- Multi-stakeholder coordination is ongoing to strengthen NCD-related services and develop the upcoming action plan.
- Group counselling and therapeutic psychosocial activities are ongoing for children, adolescents, and affected families.
- Mental health IEC materials are being distributed, and referral mechanisms for specialized services are being strengthened.
- Specialized teams are conducting mental health needs identification and assessment and providing appropriate support.
- Services, monitoring, and coordination continue through the mental health helpline and online reporting system.
